	Total miscues for reading	Total words read (both correctly and incorrectly)	<b>Accumativity Computation:</b> 1. Pacing – total miscues = Words Read Correctly (WRC) 2. Divide WRC by seconds to read passage, then multiply by 60.  <b>Percentile Computation:</b> Compare CWPM to Hasbrouck & Tindal norms for time of year to obtain percentile	(sum the 4 categories from rubric to arrive at score between 4 and 16)	(number of questions answered correctly)
<b>Assessment Summary:</b> <p>The <u>accumativity</u> at which Carol reads narrative text is at the 58<sup>th</sup> percentile on the Hasbrouck &amp; Tindal norms, suggesting <u>good accumativity</u>. The score of 14 on the prosody rubric indicates very smooth reading while the score of 3 for comprehension suggests at least minimal understanding. These results suggest that Carol is a fluent reader who exhibits at least minimal comprehension with grade-level narrative text.</p> <p><i>Instructional Action:</i> continue reading grade-level text; read some above grade-level materials which will challenge Carol and continue to build fluency as Carol progresses through third and into the fourth-grade. Assess again towards the end of school or beginning of fourth-grade. Carol should engage in summer reading to avoid possible summer fluency loss.</p>
